SECTION 1 – GENERAL TERMS AND CONDITIONS

1.1 INTRODUCTION

These Rules and Regulations contain rules, regulations, rates, and other charges applicable to the use of Watco Greens Port (the “Terminal”) by any entity (“User”). The Terminal is a privately-owned facility and is not affiliated or associated with any city, state, or federal agency. Use of the Terminal is by private contract by and between the owners and operator of the Terminal and User. The Terminal is owned and/or leased by Watco Dock & Rail, LLC, Watco Dock and Rail, LLC III (and its affiliates) and operated by Watco Transloading, LLC (collectively, “Watco”). References to Terminal herein shall be deemed to include, and shall inure to the benefit of, Watco.

1.2 APPLICATION OF TERMINAL RULES AND REGULATIONS

These Rules and Regulations apply to all Users of the Facility and all services provided to User, irrespective of their nature, regardless of whether such services involve operations that would be considered stevedoring operations, terminal operations, warehouse operations, or any other kind of operations or the provision of services under any common understanding or trade usage and regardless of whether any charge is made or paid for such operations or provision of services. These Rules and Regulations shall take precedence over any provisions in any carrier’s bill of lading or shipping document. These Rules and Regulations shall be deemed to have been accepted by User and shall be binding upon User with respect to any services that have been requested by User or those acting on its behalf, or which have been performed on behalf of User. Any confirmatory action by User under these Rules and Regulations or any acceptance of services or operations at the Terminal shall constitute assent to and acceptance of these Rules and Regulations. Unless Watco expressly indicates otherwise in writing, Watco rejects, and shall not be bound by, any rule, regulation, term, or condition requested by User that is different from or in addition to these Rules and Regulations. No rules, regulations, terms, or conditions set forth herein shall be changed, amended, or supplemented without Watco’s prior written consent.

With respect to services provided to or requested by Users, and how rates and fees are charged, Users are referred to the following appendices hereto:

Appendix “A”	Service Rates and Fees
Appendix “B”	Dock Information
Appendix “C”	Barge Information
Appendix “D”	Trucking Information
Appendix “E”	Rail Information
Appendix “F”	Terminal Maps

Rates, rules and regulations shall apply equally to all Users of the Terminal and shall apply on the

effective date shown on these Rules and Regulations or amendments thereto. Rates, service charges and the calculation of charges are further explained in the Appendices.

The use of the Terminal's facilities constitutes a consent to the terms and conditions and evidences an agreement on the part of all vessels, their owners and agents, and the Users of such facilities, to pay all charges specified and be governed by all rules and regulations and applicable service rates and fees herein contained.

The Terminal reserves the right at any time or times and without notice to deny the use of its facilities to any User who or which is delinquent in payment of its accounts, and such denial may be continued until such accounts are fully paid up and in current status.

The Terminal shall be the sole judge as to the interpretation of the rates, rules and regulations.

1.3 FORMATION OF CONTRACT

All applications, orders, and instructions regarding operations and/or services to be provided by or at the Terminal shall be in writing. Oral communications or arrangements shall only be binding on the Terminal if immediately followed by a written confirmation. The Terminal has the absolute discretion to accept or reject any application, order, or instruction from User. The Terminal may refuse to accept any application, order, or instruction for any operations or services without any obligation to provide a reason. Instructions received by the Terminal after 14:00 on a working day shall be considered to have been received on the next working day.

An agreement to perform requested services between User and the Terminal shall come into effect on the date of the Terminal's written acceptance and/or written confirmation of any application, order, or instruction from User, which shall be deemed to incorporate these Rules and Regulations. Any conflict between these Rules and Regulations and any other documents shall be resolved in the following order of precedence:

1. A separate, written agreement applicable to the Terminal, including any Letter Agreement, storage or lease agreement, to which Watco and User are counterparties and bound;
2. These Rules and Regulations;
3. Any agreed, written exceptions or special terms and conditions to which Watco and User are direct parties, and which specifically reference these Rules and Regulations;
4. Any other written instructions, emails, or other correspondence pertaining to the use of or services at the Terminal.

1.4 BILLING AND COLLECTION

A. Liability for Charges

- 1) All bills are due upon presentation and, unless other arrangements with Watco and their designated freight handlers, are payable by the User or person designated of this item, at a time or times provided unless otherwise provided in this tariff. Watco will not permit movement of cargo from or across or through its facilities or may withhold

permission to occupy or use such facilities, appurtenances and equipment until all tariff rates and charges have been paid except that Watco, and their designated freight handlers may voluntarily extend credit arrangements to govern settlement of aforesaid rates and charges. Vessel or authorized agent will not permit the movement of cargo direct to or from ship's tackle and land and water carrier until the permission of Watco as specified in this paragraph has been obtained.

Errors, if any, will be rectified by adjustment or amendment based on information received subsequent to the issuance of the original bill.

User or person desiring or proposing the use of Watco or their designated freight handlers property, facility or equipment may be required to deposit, in advance, an amount sufficient to satisfy anticipated costs or expenses thereof; or in the alternative, may request extension of credit.

In absence of specific arrangements, User thereby warrants to Watco or its designated freight handlers that he is liable and responsible for payment of charges provided in this tariff and will pay the same as herein provided. If such User desires to relieve himself of such obligations, he shall (a) deposit with Watco the amount of charges estimated by Watco to be due, and (b) in writing state the correct name and address of the owner or party warranted to be responsible for the charges.

- 2) Extension of Credit: Watco at its option and subject to termination at its election, may at any time or from time to time extend credit to any User or other person conducting business with Watco pursuant to provision of this Tariff or amendments or reissues thereof, by such User or other person establishing and maintaining financial responsibility acceptable to Watco. Further extension of credit may be suspended or terminated by Watco, subject to establishment of added or extended credit acceptable to Watco. Extension and continuation of credit shall be conditioned upon payment of invoiced charges within thirty (30) days from date of invoice. Any invoice remaining unpaid 30 days past invoice date is subject to an interest charge of 20% per annum, simple interest, for each day over 30 days until the invoice is paid and reimbursement to Watco for all reasonable attorney fees.

3) Invoice Procedures and Liability:

- a) All vessels, their owners, or agents, will be liable for and billed for Dockage, Shed Hire and/or Wharf Use Charge, and for provision of water and related utilities and services accorded the vessel, including Wharf Cleaning.
- b) Terminal Charges and Wharfage Charges set forth are liabilities of the owner and agents of the cargo; however, the collection and payment of same must be guaranteed by the vessel, her owners and agents, and the use of Watco's facilities by the vessel, her owners, and agents, shall be deemed an acceptance and acknowledgment of this guarantee.
 - i) As compensation to said Vessel Agent for such collection and payment of Wharfage charges as specified in Section Two, Watco shall allow a credit of four percent (4%) of the total wharfage charges incurred.
 - ii) Vessel Agent accounts with Watco must be in good standing to be eligible for the 4% wharfage credit. Vessel Agent accounts overdue by 30 days are subject to loss of the 4% wharfage credit. Vessel Agent accounts overdue by 90 days are subject to being

placed on prepayment terms.

- iii) The credit of four percent (4%) will only be allowed in instances where the collection and payment of said wharfage charges is by the appointed Vessel Agent and is paid timely as specified herein.
- iv) Wharfage charges on cargo shall be assessed based on manifest weights, unless otherwise provided herein.

B. Collection of Charges

- 1) Invoice Procedure and Liability: Liability for payment of loading and unloading charges set forth in Section Two will be the responsibility of the owner and agent of the cargo and the party assigned the responsibility for performing loading and unloading services and shall invoice and collect from such owner and authorized agent. The charges for such service performed as defined herein shall be strictly in accordance with the rates, charges, classifications, rules regulation, and practices set forth in this Tariff and further, said party assigned the responsibility for performing loading, unloading and related services shall not in any respect whatsoever deviate from or violate any of the terms or conditions or provisions of this tariff, and no rates or charges assessed or collected by it pursuant to this tariff shall be directly or indirectly refunded or remitted in whole or in part in any matter or by any device.
- 2) All charges for services provided and in other provisions of this Tariff will be payable in advance unless prior arrangement for the extension of credit to the party responsible for such charges have been made with the party assigned the responsibility of providing loading and unloading service. Where such credit is extended, all bills rendered by the party assigned the responsibility of performing the services are due and payable upon presentation and not more than 30 days following the performance of such service.
- 3) An interest charge of 20% per annum will be assessed against unpaid invoices over 30 days until the invoice is paid and may include all reasonable attorneys' fees. Written notice of any invoice in dispute must be furnished to Watco's Billing Department within ten (10) days from date of invoice or interest charges will apply.
- 4) Wharf Demurrage Charges will be assessed to the owner of the cargo or his authorized agent, to whom invoice will be sent.
- 5) Wharf Demurrage Charges will continue to apply until cargo is removed from the premises.
- 6) Transshipped Cargo-Wharf Demurrage Charges will be assessed to the outbound vessel, its agent, or owners to which cargo is assigned, to whom invoice will be sent.

In the event that User requires that any cargo be stored at the Terminal, such storage shall be at the rates set by the Terminal. The Terminal reserves the right, unless otherwise agreed, to relocate User's cargo within the Terminal at the Terminal's sole cost and expense. The Terminal assumes no liability for any loss of or damage to cargo handled, stored, transported, or shipped through the Terminal, except to the extent it is proven in a court of law that such loss or damage was directly caused by the Terminal's failure to exercise its duty of reasonable care in the performance of its operations and services. Under no circumstances, however, shall the Terminal be liable for acts of God, inherent vices of the cargo, and/or expected or customary trade allowances, including but not limited to bulk cargoes, associated with shortage, shrinkage, wastage, wear and tear, movement or transfer of cargo. Additional Charges/Computation

1) DOCKAGE RATES ON VESSELS

- a. Dockage shall be charged on the overall length of the vessel or barge as shown in the current issue of Lloyd's Register of Shipping. If length is not shown in Lloyd's Register, the Ship's Certificate of Register showing length will be accepted. However, Terminal reserves, without question, the right to measure any vessel when deemed by it to be necessary and to use such measurements as the basis of the charge. When necessary to measure a vessel, the linear distance in feet shall be determined from the most forward point on the bow of the vessel to the after most part of the stern of the vessel, measured as parallel to the base line of the vessel.
- b. Dockage on all vessels, except bulk vessels as outlined below, will be determined by multiplying the Length Overall (LOA) in feet, by the rate in cents per foot, to establish the dockage charge per 24-hour day.
- c. Vessels will be allowed to dock without charge from 1800 hours to 0600 hours. However, if vessel cargo operations begin before 0600 hours, then normal dockage charges will apply starting at the docking time. If no vessel cargo operations begin before 0600 hours, then dockage charges will begin at 0600 hours.
- d. Bulk cargo vessels shall be charged on the gross registered tonnage as shown in the Lloyd's Register at the rate of \$0.54 per gross registered ton per twenty-four (24) hour day. Additional days will conform to c. and d. above.
- e. Layberth Charges: In the case a vessel requests to stay at the berth after completion of cargo, dockage will be assessed at a rate of full day's dockage starting two hours after the completion of cargo operations for any portion less than 24 hours. Layberth charges will be assessed at full day's rate for every full or partial day at the berth. ***No discounts will be applied for layberth periods.***

2) CHARGE FOR WATER

Water will be supplied to vessels through hoses and connectors provided by the vessel.
